

AQUA

ENHANCING WATER MANAGEMENT FOR CLIMATE CHANGE RESILIENCE IN ADRIATIC-IONIAN AREA

This project is supported by the Interreg IPA ADRION programme under the Interreg Funds (European Regional Development Fund and IPA III)

AQUA aims to enhancing resilience to climate change of water utility companies in the Adriatic-Ionian area. By developing a joint action plan and strategy and user-tailored tools, the project aims to improve water resource management, increase capacities for climate change adaptation, and mitigate the impact of natural and man-made disasters.
